PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology student specializing in Web Design and Development, with hands-on experience building websites, web applications, ERP simulations, and digital business solutions. Skilled in front-end development, UI/UX design, business systems analysis, and project coordination. Passionate about using technology to solve real-world problems and creating scalable digital products for African businesses and communities.

Strong ability to learn quickly, work in teams, manage projects, and deliver modern, user-focused solutions. Currently seeking internship, graduate, junior developer, or business technology opportunities where I can contribute technical and creative skills while growing professionally.

PROGRAMS & TRAINING

FNB App Academy

Completed a 9-week development program focused on front-end and back-end web development, digital product creation, teamwork, and problem-solving. Worked on building SaaS concepts and practical web application solutions.

PROJECT EXPERIENCE

Web Developer – JG Services Website

Designed and developed a professional business website.

Improved website structure, responsiveness, and user experience.

Responsible for ongoing website maintenance and updates.

Assisted with digital branding and online presence.

KeyNest – Smart Property Management System

Personal Project

Designed a web application concept for managing BnB and rental properties.

Researched property management workflows and digital solutions.

Planned features for bookings, maintenance tracking, and client management.

ERP Business Simulation – Clothing Store

Using Odoo

Configured inventory, sales, and purchasing modules in Odoo.

Analyzed business reports and workflows.

Simulated business operations to improve understanding of enterprise systems and business analytics.

Digital Project Planning Simulation

Using Jira and Trello

Created project management workflows and task tracking systems.

Simulated crisis management and agile planning processes.

Developed skills in sprint planning, collaboration, and digital project coordination.

EXPERIENCE

Freelance Web & Digital Support

Self-Employed | Part-Time

Assisted with website setup, content updates, and digital support tasks.

Helped businesses improve their online presence and branding.

Worked on social media setup and Shopify-related tasks.

ACHIEVEMENTS

Gained experience with both technical development and business systems.

Active interest in entrepreneurship, technology, and digital innovation in Africa.
